

TRIP 11.B. “TRASHUMANCIA”. THE SPANISH COWBOYS. SHORT

Difficulty level: high (ONE OF OUR TOUGHEST TRIPS!)

Duration: 3 days

Time on horseback: 4-9 h daily

When: from 11th to 13th November 2017

No. participants: min 3 – max 5

The **first day** we ride from *Villafranca del Cid* town (Castellón province) to *Mosqueruela* town (Teruel province) following a cattle path. There are many cultural and natural attractions in *Villafranca del Cid* worth to see, as the “drystone” architecture or the town itself. We’ll ride through awesome landscapes while crossing a mountain range at 1.100-1.200 m above the sea level.

The **second day**, very early in the morning (6.00 am), we drive a herd of migrating beef cows from *Mosqueruela* to *Vistabella del Maestrazgo* area (Castellón province). We ride at a slow pace, following and **guiding** the **cattle** from the summer pastures to the winter ones. Our horses are used to work with cattle in the countryside. This is a unique opportunity for experiencing this **tough and ancient tradition**, riding through rough trails and beautiful landscapes.

The cattle belong to the **Fernando Robres** ecological livestock farm: [Fernando Robres farm](#). This farm focuses on the welfare of the animals, on keeping the local traditions and on producing very high-quality meat. The cows are reared in freedom, born and raised in the mountains and fed on grass and ecological pastures without chemical fertilizers or pesticides. The winter pastures of the farm are in *Vistabella* (Castellón), while the summer ones are located in *Mosqueruela* and *Linares de Mora* (Teruel).

Fernando Robres farm also owns a **store** where they offer products made with the meat of the cattle they rear, as well as other ecological products produced in the area. We'll have the opportunity of visiting the store and tasting their healthy and delicious products.

The **third day** we will ride in *Vistabella* and **Penyagolosa Nature Park** area. The **Penyagolosa** mountain is the highest mountain in the province (1,813 m), providing a magnificent panorama from its top. It is covered by a well-preserved and diverse forest. There are also many cultural and architectural attractions worth to visit. Our route runs along the slopes of the **Penyagolosa** mountain, following the route of the millenary **Useres pilgrimage** in some stretches. We ride through one of the most beautiful landscapes of the province. In this route, we'll meet some riding challenges since the paths are quite incline.

This trip is full of innumerable **architectural, historical and cultural attractions**, which will take us back to distant epochs (village of Mosqueruela, for example). We will also tell you exciting stories and interesting traditions of the area, as the ancient Useres pilgrimage. And last but not least... we guarantee a **great gastronomic and wine experience!**

You cannot miss this extraordinary riding trip, where you will live so many diverse and enriching experiences!!!

Total price for 3 days:

Riding: 475 € per person. Included: horse, riding equipment, native guides + translator Spanish-English, one rustic meal per day, accident insurance, cattle driving activity, horse and person transport.
